

# Advanced retail solutions

**INGRAM** MICRO<sup>®</sup> ADVANCED SOLUTIONS

From loyalty programs to security and curbside pickup, Ingram Micro's smart retail solutions can connect retailers with their customers and provide knowledge and tracking of inventory and security around assets. Gain access to an innovative network of solutions for all smart retail needs.

**STORE CONNECTIVITY:**  
Wireless and wired networks give retailers the capability to connect with their customers in real time.

**PHYSICAL SECURITY:**  
Keep associates and inventory safe with security systems that provide high-resolution imagery, videos and sound.

**MOBILE PAYMENTS:**  
From contactless payments to mobile wallets, any business, big or small, can offer secure mobile payment options to customers.

**ASSISTED POS:**  
Create a tension-free buying experience. Our system collaborates with smart retail solutions so employees can spend more time with clients.

**DATA ANALYTICS:**  
Easily collect and analyze a wide variety of data to give insight into a store's needs, successes and more.

**LOYALTY PROGRAM:**  
Develop a customer loyalty program through software management systems that promote products and services while gathering customer insights.

**NETWORKING MANAGEMENT:**  
Utilize software to monitor and control with contactless options and organizational management in person and on the cloud.

**INVENTORY AND REPLENISHMENT:**  
Scale a business without hassle. Integrate smart technology that allows retailers to digitally view total inventory and replenish as needed.

**CURBSIDE PICKUP:**  
Provide customers with a convenient, fast and contactless shopping experience.

**SELF-CHECKOUT:**  
Give your customers another option to complete their shopping experience and put the control back into their hands using self-checkout.

## Did you know?

The global smart retail technology market is expected to grow from **\$22 billion** in 2021 to more than **\$68 billion** by 2026.
