

CloudBlue PSA: Purpose-built features for MSPs

A SINGLE PANE OF GLASS FOR PROJECTS, CUSTOMERS
AND PROFITABILITY

Ingram Micro Financial Solutions enables partners to streamline financial processes through technology integrations and tools. Meet CloudBlue PSA, the latest integration to help provide partners with quoting, pricing and financing capabilities. Let's explore its features:

 **Make the right business moves**
Access real-time profitability data, giving you key insights to make better decisions. This feature makes profitability forecasting on demand and effortless by collecting expenses, use of external labor, POS and time bookings.

 **Seamlessly manage the whole lifecycle**
CloudBlue PSA helps automate the quote, order, contract, ticket and invoice processes. Ingram Micro Financial Solutions will then work with you to finance quotes. This introduces a new type of simplicity and opportunity to partners.

 **Empower your business with the freedom to grow**
These highly automated processes allow your sales and finance teams to save time and increase productivity. This includes consolidating customer invoices with both recurring contract items and finance payments.

 **Experience the benefits that come with a PSA built for the modern MSP**
CloudBlue PSA was created to be a true professional service automation tool for MSPs. The platform continuously improves itself for the MSP of today and tomorrow. This means you benefit from a purpose-built tool that adapts to your business needs.

CloudBlue PSA unifies sales, finance and operations for partners. Are you ready to gain full visibility of your business?
