The Now of Retail

Ever-Evolving Shopper Expectations

85%

of shoppers have increased curbside pick-up since COVID-19

79%

say a contactless store pickup is very important to them

58%

agree shoppers have a better experience when associates use the latest technology to assist them

Are Driving Retailers to Embrace Innovative Solutions

71%

of retail executives report they are under pressure to improve fulfillment operations and efficiency while reducing expenses for online orders

79%

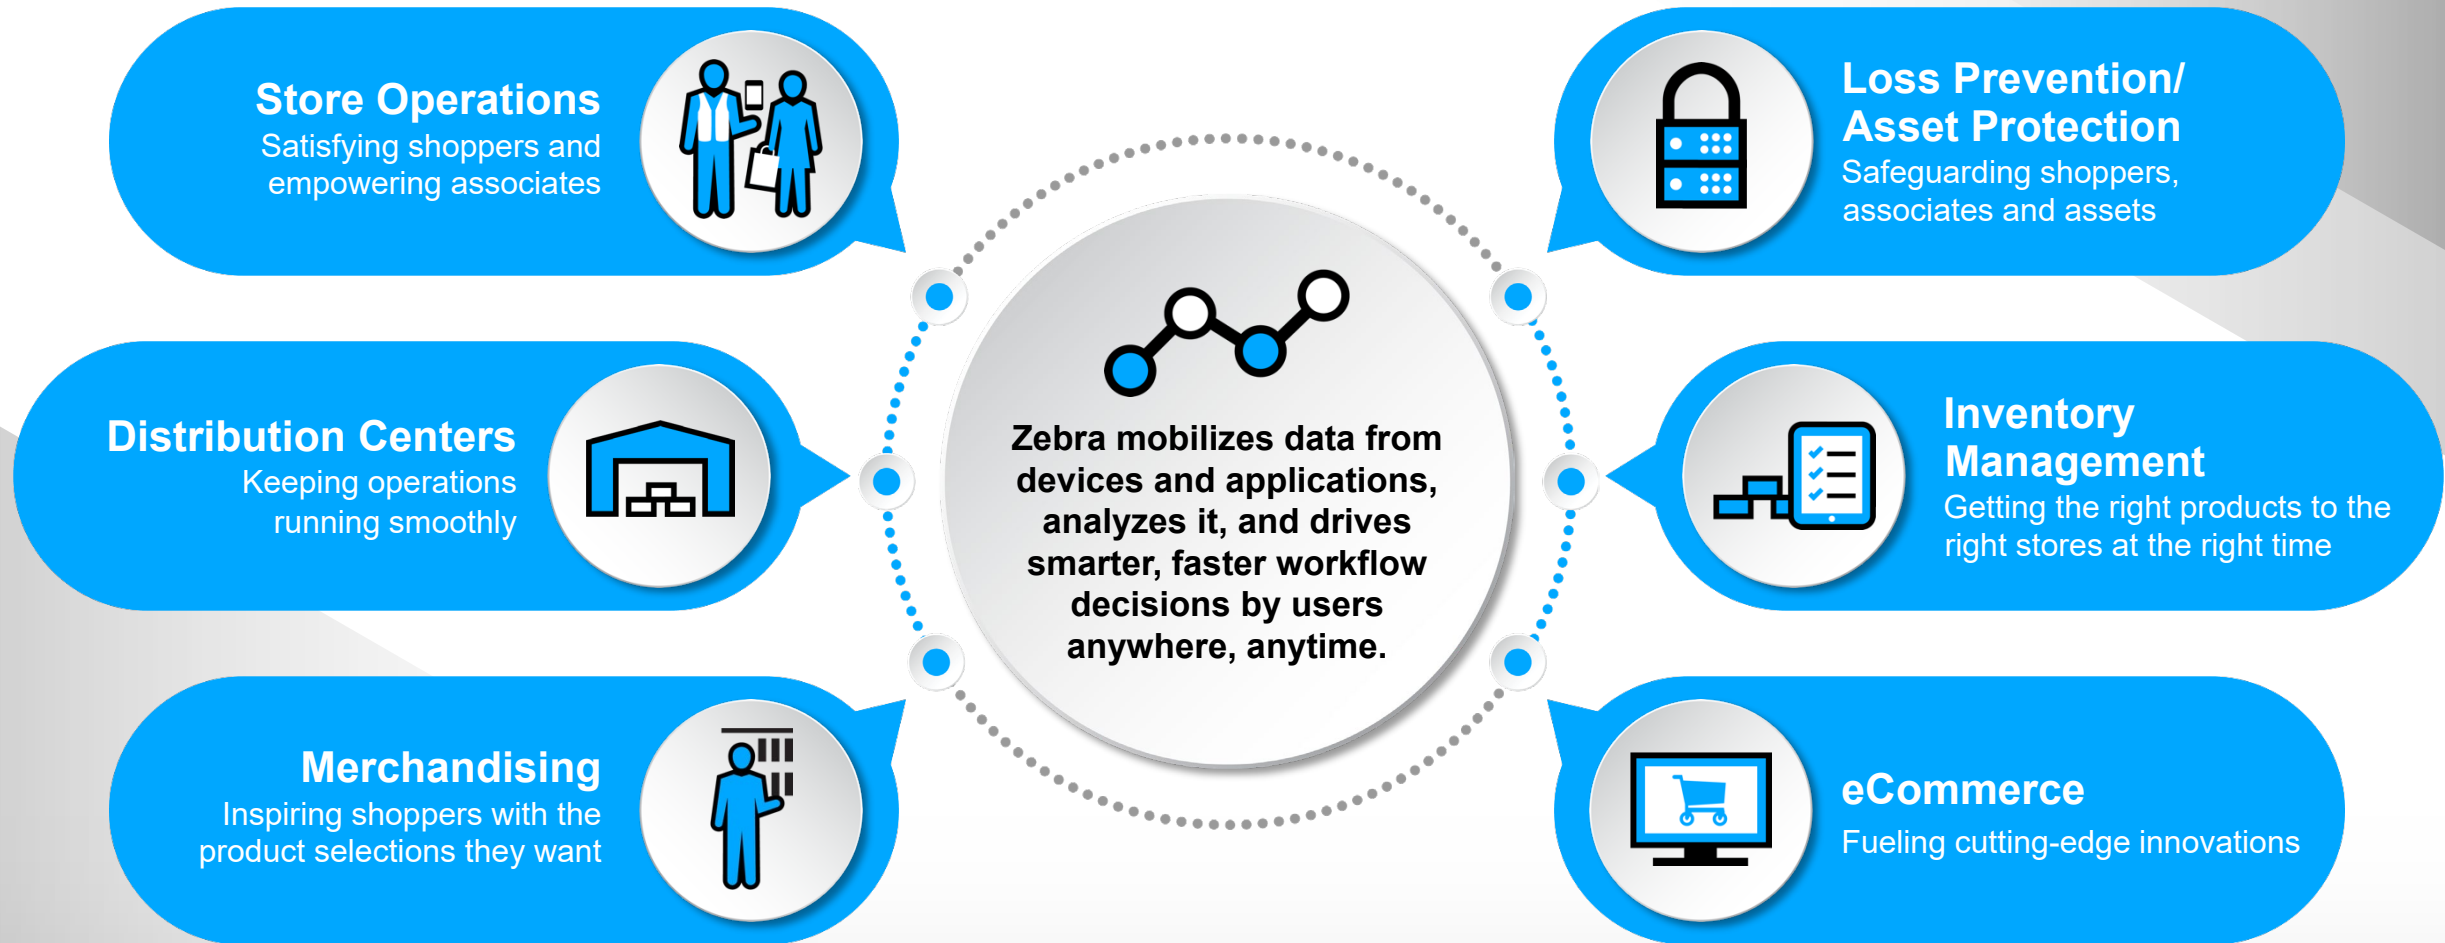

of associates say they can elevate the shopper experience with technology and devices that provide real-time inventory visibility

86%

of decision makers have or plan to integrate digital intelligence into their supply chain operations

STORE OPERATIONS

ON-SHELF AVAILABILITY

Reducing and Managing Out-of-Stocks

#1

Product availability is now the #1 concern for shoppers

How do you identify intraday shelf availability issues?

How many out-of-stocks are driven by inaccurate on-hand counts?

Do you fulfill online orders from in-store inventory?

What processes do you have in place?

SCENARIO

Today's Omnichannel Shopping Puts New Demands on Inventory Practices

Zebra's 2021 Shopper Vision Study uncovers the top reasons shoppers leave a store without making a purchase:

41%

Desired item is out-of-stock

31%

Can't find the item on shelf

Nearly 8 out of 10 associates agree real-time inventory visibility would help them provide a better experience

76%

76% of retailers agree that maintaining real-time inventory visibility is a significant challenge

SOLUTION

Zebra's Approach Starts with Analytics

Pattern Recognition

Zebra **Prescriptive Analytics**™

Powered by Zebra Savanna™

Analyze real-time sales and POS data to automatically identify SKUs with a sales pattern indicating a shelf availability issue

Inventory Visibility

Zebra **SmartCount**™

Near real-time visibility into on-hand inventory counts for managing fulfillment, replenishment, shrink and promos

Inventory Availability

Zebra **SmartSight**™

Intelligent automation can spot multiple issues with shelved merchandise – shelf-outs, damaged goods or misplaced SKUs

Out-of-Stock Detection

Shelf-Edge Cameras

Use AI-powered cameras to continuously monitor shelves and immediately detect out-of-stocks to ensure maximum on-shelf availability

On-Hand Accuracy

Zebra **SmartLens**®

Powered by Zebra Savanna™

RFID technology tracks items as they move throughout a store for an accurate real-time view of inventory on-hand.

55% of Shoppers

rank product availability most important when shopping in-store and online

Are You Managing Scheduling or is it Managing You?

What tools exist
to help your store
managers
schedule?

How much
time do store
managers
spend on
schedule
creation and
changes each
week?

What is overtime
pay as a percent
of total hourly
labor spend?

How accurate
is your
customer
demand
forecast?

How is FTE
staffing per
location
calculated
today?

SCENARIO

Outdated Tools Rely on Guesswork and Intuition

What if you could:

- ✓ Reduce admin time by up to 3 hours/week?
- ✓ Decrease employee turnover by up to 4% annually?
- ✓ Cut unplanned/undesirable overtime by 90% to 95%?
- ✓ Shrink hourly labor spend by 5% to 7%?
- ✓ Grow sales by 7%?
- ✓ Increase productivity by 5%?

Zebra has the right solution for you

SOLUTION

AI-Powered Workforce Management

REFLEXYS
Workforce
Manager

Optimizes
scheduling in
minutes

Controls
workforce
costs

Improves
employee
engagement

Optimize Labor Deployment

Forecast and create
precise workloads

Consider associates'
preferences

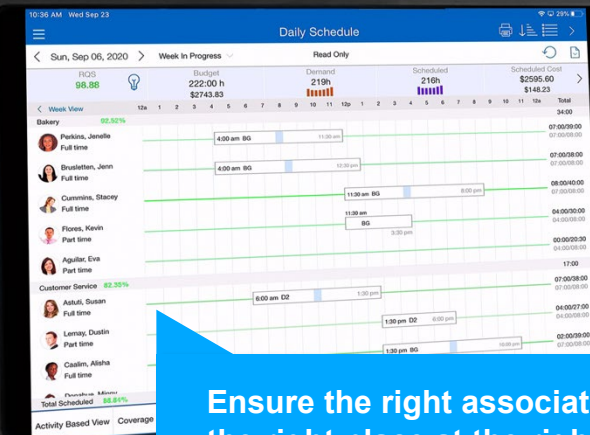

Ensure compliance
with labor laws

Empower Associates

View
schedules

Advertise and
swap shifts

Request more hours
and/or time off

Ensure the right associates are in
the right place at the right time

Try it with:

Overpayments, Underpayments, Incorrect Payments

**Up to 2.5%
of total annual
payroll and
labor expenses
can be
attributed to
payroll leakage**

Are you
experiencing a
surprising
surge in
labor costs?

How do
associates
clock in and
out each shift?

What controls
are in place to
ensure accurate
clock times?

What are
your most
critical
issues?

SCENARIO

Payroll Leakage: Uncovering the Issues

Associates leave, but
continue to get paid

Inadequate oversight

Undermanaged
timekeeping

Gaming of
pay policies
and schedules

SOLUTION

Optimize Labor Budgeting, Forecasting and Spending

It's as easy as 1-2-3

Workforce Scheduler

Properly aligns staffing
with demand

Reduces excess staff

Matches associate's skillsets
with specific jobs

Self-Service

Increases associates' control
over their schedules

Enables associates to
trade shifts

Provides management
oversight

Time and Attendance

Helps eliminate
payroll leakage

Reduces practice of
"Buddy" punches

Supports 3D facial recognition

So Much to Do, So Little Time

**50% of current
work activities
can be
automated with
technology**

How do
associates
prioritize
tasks?

Can you
measure
how your
associates
spend
their day?

How do you
ensure proper
execution of
assigned tasks
and activities?

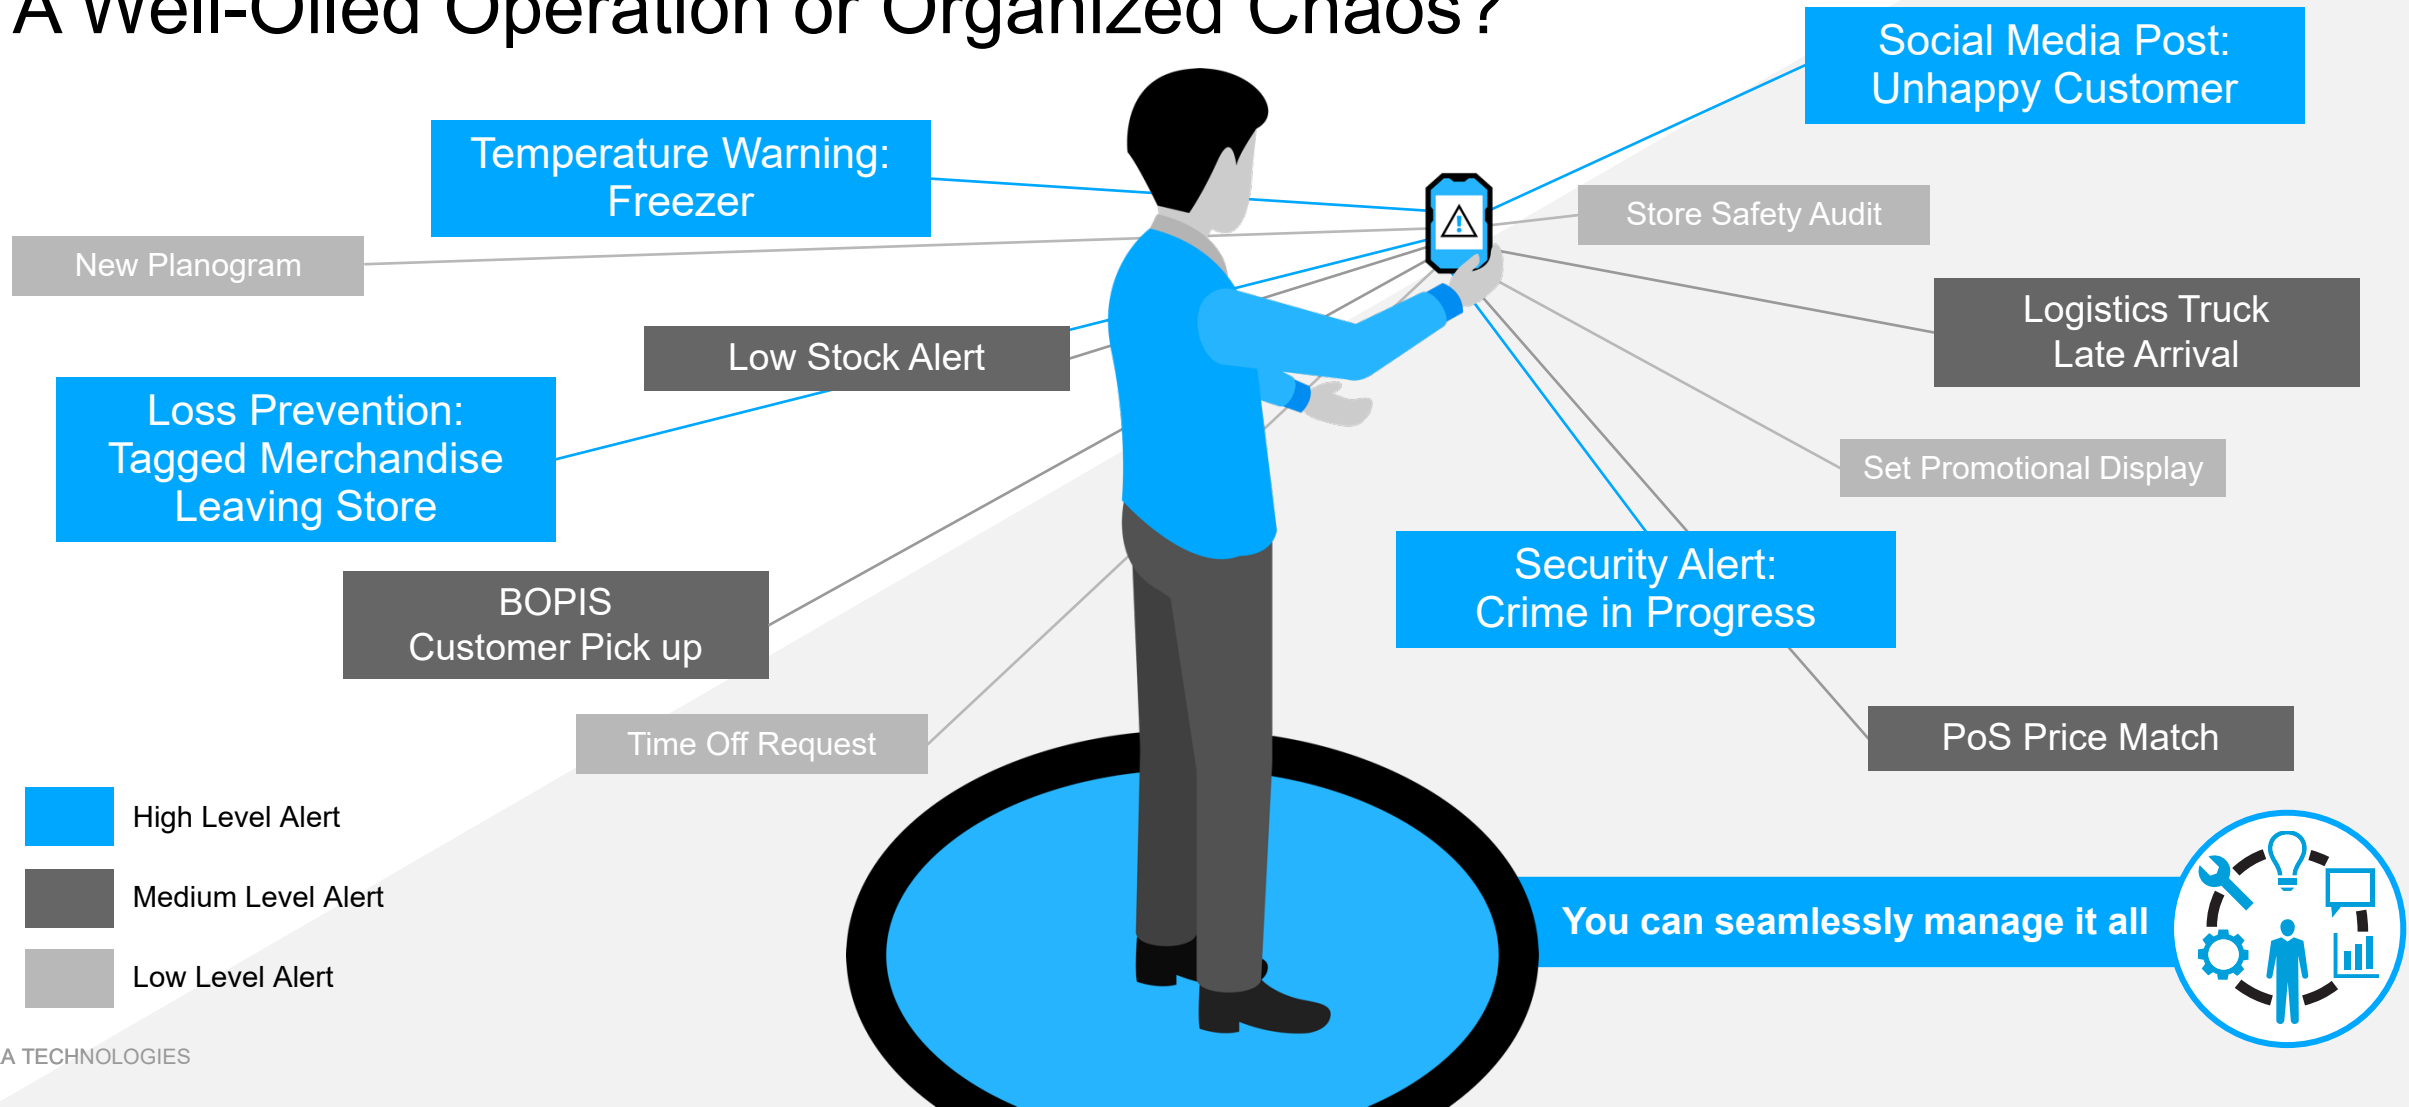

What tools
do you have
in place?
Are they
helping?

SCENARIO

A Well-Oiled Operation or Organized Chaos?

SOLUTION

Simplify Store Execution

REFLEXIS

AI-enabled task management

Reflexis eliminates the chaos by making it easy to manage, monitor and measure individual and team performance in real time

Set Priorities

Send Reminders/Notifications

Establish Timelines

Track Progress

Assign Tasks

Evaluate Performance

Prescribe New
Behaviors & Workflows

Measure Results

Reduce store labor by 5 to 7
hours per store per week

Click & Collect: No Longer a Nice to Have

BOPIS
is a
must have to
keep pace

What is the
process for
picking
shoppers' online
orders today?

Can your staff
keep up with the
uptick in online
orders?

What
percentage of
orders are
picked
accurately and
on time?

How do
associates alert
management of
issues when
picking orders?

86%

86% of consumers are likely to use buy online, pick-up in store or drive-up/curbside options in the future

SCENARIO

When In-Store Fulfillment Doesn't Deliver

Insufficient Labor Allocation Methods

- Not enough labor to serve shoppers and fulfill online orders
- Not staffing the right associates to perform omnichannel tasks

Inadequate Communications

- Limited communications are reducing speed and productivity

Inconsistent Workflows

- Associates veer from standard procedures, take shortcuts and deliver inconsistent performance

Variability in Picking Accuracy and Speed

- No way to measure performance, pinpoint problems and address issues

SOLUTION

Unlock the Potential of Your Staff and Stores

Reflexis helps you:

- Staff the right skills to deliver flawless in-store fulfillment: Picking, packing, shipping/pick up and returns
- Respond to shifting shopper demand patterns, sick, callouts and overs/shorts
- Ensure faster fulfillment of online orders by alerting and assigning a prioritized task to the associate best able to execute
- Make it easier for associates to alert management of issues, ask questions and collaborate with team members
- Analyze operational performance, identify problems and suggest fixes to labor related issues

**Reduce
order turn
time up to
10 minutes**

Crossing the Chasm

How do you
communicate
with associates
during a crisis?

How much
communication is done
between associates
using unmonitored
and unsecure
third-party channels?

How do employees
communicate
across your store
today?

SCENARIO

Eliminate Communications Barriers

Can you target communications to specific roles and team members?

Are you able to quickly communicate with associates and managers about urgent projects?

Do your devices facilitate fast answers to direct questions?

Are these issues impacting your operations?

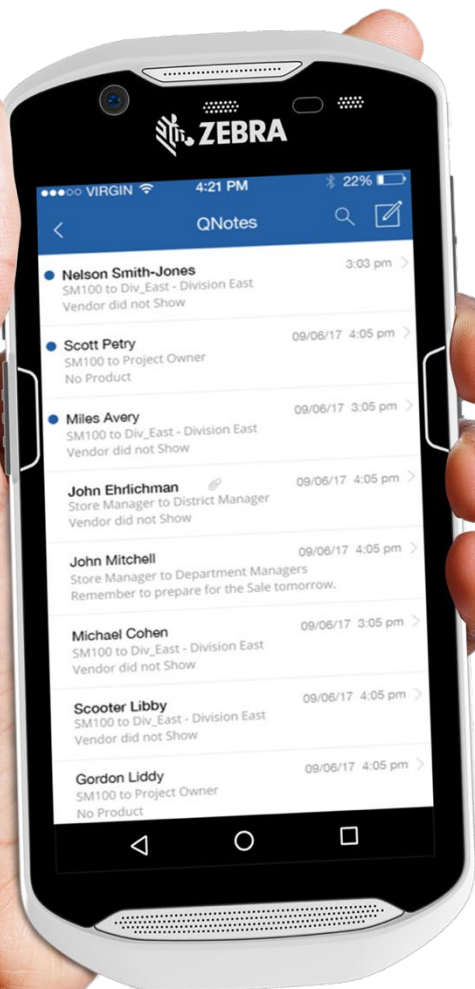

SOLUTION

Keep Communications Flowing

Integrate instant messaging and broad-based communications

Enable secure, centralized, permissions-based communications

Provide seamless communications across your organization

Make individual and group messaging easy

Ensure fast, appropriate actions

REFLEXIS
boosts in-store
productivity by up to 25%

Simplify search with AI-Powered digital assistant

Target associates by role, hierarchy and location

Analyze trends

Eliminate unsecure third-party chat apps (SMS, WeChat)

Lost in Confusion

Endless searches for documents
and forms come up empty

What tools exist to help categorize, organize, and share forms/documents with associates?

What controls do you use to prevent accidentally editing or deleting forms/documents?

How are safety incidents or maintenance requests handled by employees?

Is there a way to track completed forms, review status and generate tasks to resolve issues?

SCENARIO

Racing Down the Rabbit Hole

Relying on real-time information to manage day-to-day operations is critical but costly

Precious time is wasted digging through online and paper resources to find just the right document or form

DOCUMENTS

Standard Operating Procedures (SOPs)

Merchandising and Store Set Documents

Marketing and Promotions Resources

Training Resources

FORMS

Safety Incidents

Maintenance Requests

Customer Complaints

Employee Onboarding

And much, much more

SOLUTION

A Digital Library at Your Fingertips

Simplify knowledge sharing with fast search and near-instantaneous retrieval

Digitize documents and operational forms

- ☒ Easily add, update and share documents and forms
- ☒ Designate rules, workflows and permissions
- ☒ Generate related tasks
- ☒ Track form status in real time
- ☒ Analyze usage and generate custom reports

The Auditors are Coming!

What is your store audit process missing?

Do auditors leverage a standardized process for evaluating your store's operations?

How do you track follow-ups triggered by an audit?

Can you easily analyze auditing data from all of your stores?

Does your audit provide an accurate snapshot of store performance and operations?

Are associates empowered to quickly address any issues uncovered during the audit?

SCENARIO

Outdated Store Auditing Practices

Audits are painful:

Leave less time for shoppers

Deliver no actionable insights

Rely on paper-based systems

Provide limited follow up and tracking

Zebra can help you put an end to inefficient, ineffective processes

SOLUTION

Modernize On-Site Inspections

Reflexis streamlines the auditing process

Standardize Inspections

Create standardized question sets and surveys

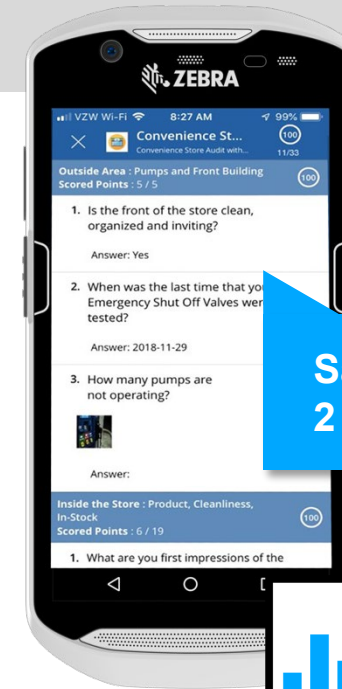

Provide Actionable Information

Get actionable data-driven insights

Automate Triggers

Generate corrective tasks for issues, improvements and opportunities

Save field leadership
2 hours per store walk

Compare Performance

Evaluate performance of stores against corporate expectations and peer locations

**LOSS PREVENTION /
ASSET PROTECTION**

Safeguarding Shoppers, Associates and Assets

[BACK TO OVERVIEW SLIDE](#)

LOSS PREVENTION / ASSET PROTECTION

Contents

Internal Theft, Fraud, Shrinkage

External Theft, Fraud, Shrinkage

Are Theft and Fraud Shrinking Your Bottom Line?

Shrink accounts for 1.62% of a retailer's bottom line and costs the industry \$61.7 billion

Do you perform proactive analytics on your POS data to identify potential sources of fraud?

Do you have an exception reporting system?

If so, do you use your system to monitor cash handling transactions (paid in, paid out, over/short)?

How much inventory is lost per store due to on hand adjustments?

What is your current shrink percentage?

How much are theft and fraud costing you?

60%

SCENARIO

Retail Losses are Adding Up

Over 60% of employee-related shrink amounts to \$500 or more

Scan Avoidance

Cashier passes an item over a scanner while purposely obscuring the barcode

Misuse of Manager PIN

Unauthorized use of manager PIN to override transactions

Price Switching

Price tags for low-cost items are attached to premium products

Loyalty Fraud

Cashier steals loyalty rewards by entering their own info instead of customer's

Sweethearting

Cashier gives products away using a variety of methods

Ecommerce Fraud

Customer-service reps send replacements packages to themselves

The list goes on: cash loss, fraudulent returns, price overrides, gift card cash outs, payouts, manual discounts and more

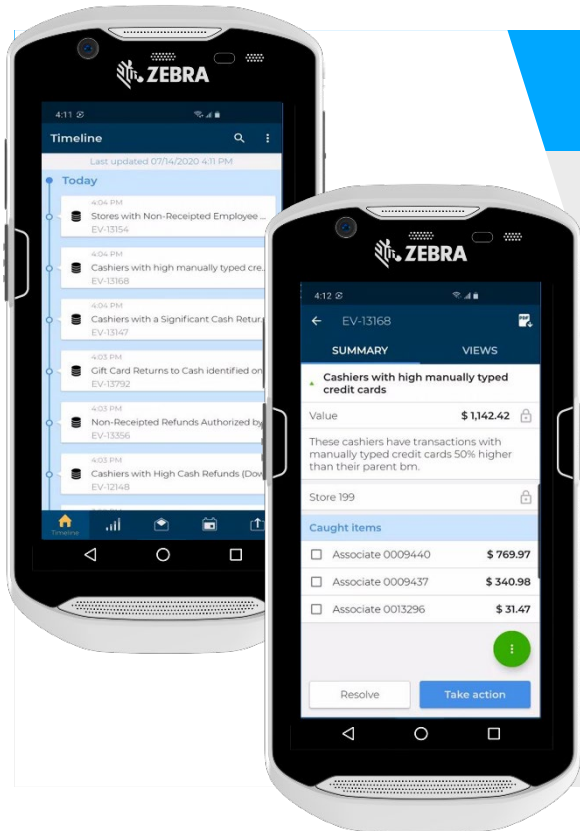

SOLUTION

Make Your Store a Smarter Store

Zebra Prescriptive Analytics™

Powered by Zebra Savanna™

80% of retailers have or are planning to invest in POS analytics

Puts your data to work protecting your assets and preventing losses

Uses pattern detection and machine learning to identify anomalies

Identifies shrink, non-compliance and discount abuse in real time

Communicates results in plain language – no more confusing reports

Issues corrective actions

Closes loop with integrated workflows

How are retailers thinking outside the box?

How much money is lost to external theft today?

How do associates communicate to one another during a potential theft event?

How does your inventory shrinkage compare to the industry average of 1.62%?

How often do you complete full store inventories and see what items are missing?

Does this process affect availability?

Are you interested in getting visibility into the causes of external theft/shrink?

LOSS PREVENTION / ASSET PROTECTION

EXTERNAL THEFT, FRAUD, SHRINKAGE

SCENARIO

Growing Threats from Shoplifting, Robberies and Organized Crime

NRF study reveals shifting priorities with retailers increasing focus on:

61%

Organized retail crime

59%

Ecommerce crime

54%

Return fraud

Shoplifters are becoming progressively bolder

More incidents of attempted theft, no fear of consequences

Organized crime “smash and grab crimes” are on the rise

Criminals are leveraging self-checkout and mobile checkout to steal

83%

83% of respondents say non-loss prevention store personnel can't make shoplifting apprehensions

SOLUTION

Take a Multi-Pronged Approach

Associate Communications

Zebra **Workforce Connect**[™]
Powered by Zebra Savanna[™]

Enables associates to quickly alert loss prevention of theft events in progress

Cycle Counts

Zebra **SmartCount**[™]

Manages shrink, optimizes inventory and savings with a simple, out-of-the-box deployment

Inventory Visibility

Zebra **SmartSight**[™]

Robotics gives visibility to theft by reporting gaps and anomalies

Automated Tasking

Zebra **Prescriptive Analytics**[™]
Powered by Zebra Savanna[™]

Data analytics highlight products targeted for theft or resale, identifies products/ locations with abnormal loss levels

Asset Visibility

Zebra **SmartLens**[®]
Powered by Zebra Savanna[™]

RFID technology alerts loss prevention that products are leaving store and haven't passed through point of sale

It's the Store

68% of retailers

report the greatest increase in fraud occurs in-store transactions

Is it unintuitive?

Employee
Training

Do they need a refresher?

Individual
Performance

Do you have hard evidence?

SOLUTION

Put AI and Machine Learning to Work

Zebra Prescriptive Analytics™ eliminates bias and finger pointing

Powered by Zebra Savanna™

1

Analyzes productivity data

2

Determines benchmark performance averages

3

Monitors productivity at the picker, date, SKU and slot number

4

Conducts root cause analysis

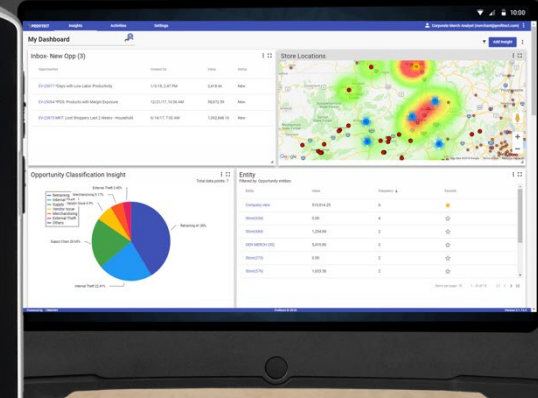

5

Examines slotting distances

6

Sends real-time corrective actions to managers

- Address training gaps
- Send SOP reminders
- Consolidate lanes
- Move items closer together

INVENTORY MANAGEMENT

Getting the Right
Products to the
Right Stores at
the Right Time

[BACK TO OVERVIEW SLIDE](#)

There's No Question: Accurate Inventory Counts are Vital

Retailers agree:

66% report inventory inaccuracies make their BOPIS offerings inconsistent

87% consider inaccurate inventory a larger factor in revenue loss than theft

How do you perform inventory counts today? How long does the current process take?

How many on-hand adjustments are made in a typical week?

What percent of out-of-stock occurrences are due to on-hand inaccuracy?

SCENARIO

Taking Physical Inventory is Painful

Many retailers turn to third-party service offerings

Challenges

Requires store manager and associate oversight and guidance

Workers lack familiarity with merchandise and store layout

Service providers struggle to deliver adequate staffing

Results in

Disruption

Poor accuracy

Difficult scheduling

Lower quality labor

Higher service fees

SOLUTION

Take Back Inventory Control

Zebra **SmartCount**[™] gives you inventory accuracy you can count on

Retailers achieve cost reductions of 25% to 50%

Superior Accuracy

Real-Time Visibility

Significant Savings

Two easy choices

Ship a kit

Use your existing
Zebra devices

Hundreds of actionable business views
and reports available

MERCHANDISING

[BACK TO OVERVIEW SLIDE](#)

Blueprints for Success

Planogram Compliance

What type of planogram tools are you currently using?

What level of corporate visibility is there into planogram compliance at each store?

How do your stores currently execute changes to the planogram?

How frequently do you conduct planogram audits?

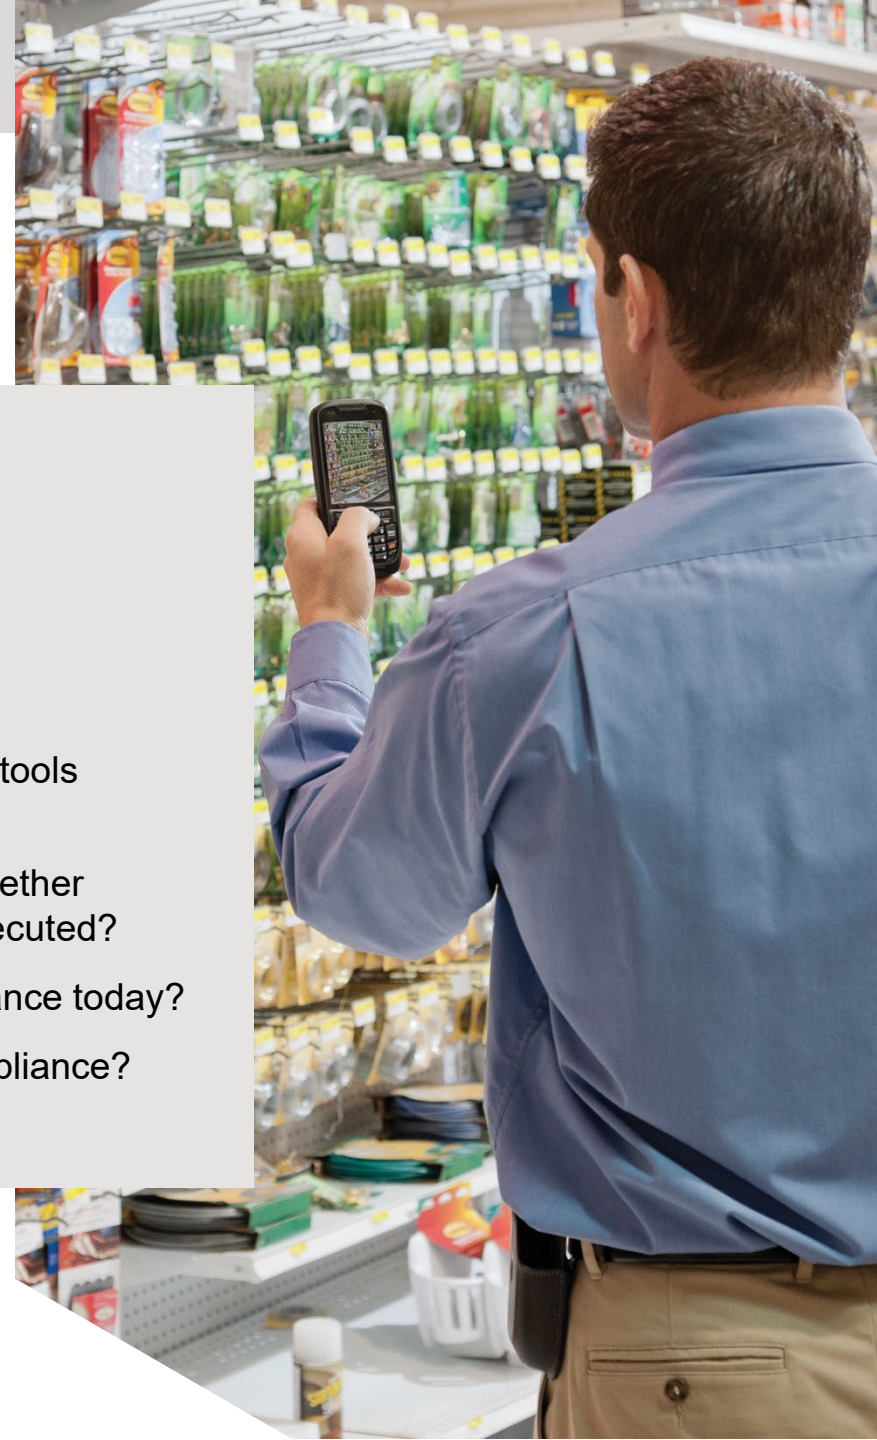

Pricing Compliance

What type of merchandising tools do you have in place?

Do you have visibility into whether price changes are correctly executed?

How do you measure price compliance today?

Who bears the cost of non-compliance?

SCENARIO

Planogram and Pricing Compliance are Constant Struggles

Are your stores stocked, priced and positioned to maximize sales?

Out of Stocks cost retailers **\$1.14 trillion** in missed sales

On average, planograms go out of compliance at a rate of **10% per week**

44% of retail stores are unable to properly reset a planogram within 13 weeks

Price matters: Promotional pricing is incorrect up to **22% of the time**

Ensuring the right product, at the right price, in the right place, in the right quantity at the right time is essential, but time consuming and often highly manual

SOLUTION

Grab Your Shoppers' Attention, Boost Profits and Make the Most of Aisle Space

Zebra **SmartSight**[™] makes it easy

Maintain Planogram Compliance

- Automatically monitor your merchandizing and ensure your planograms adhere to the plan
- If something is awry, you'll know and be able to swiftly resolve issues

Ensure the Price is Right

- Improve margins and reduce regulatory compliances fines
- Automatically detect label and pricing issues with more than 95+% accuracy

Solve Problems Faster

- Automatically uncovers issues and determines ways to resolve them
- Transfers that guidance to your staff via a mobile app
